PREMIUM BLACK ANGUS BEEF™

MEET THE FARMER

At Creekstone Farms, we define quality as excellence or superiority. We strive for that level of quality in everything we do. The Creekstone Farms program is unique to the industry because it combines superior Black Angus genetics, exceptional cattle management practices, carefully controlled high-quality feeding and state-of-the-art processing.

Everything we do, from focusing on genetics to closely monitoring processing and production, is all in the name of quality. These standards for quality allow us to produce consistently outstanding products that proudly bear our name.

We work hard to provide a system that is unmatched in the beef industry and helps us deliver consistently high quality products to our customers.

COMMITMENT TO QUALITY

What makes Creekstone Farms superior? It's our commitment to Quality. From the cattle we procure all the way through to our state of the art processing, we are committed to producing the highest quality beef in America!

- USDA Certification
- Hand Selected Black Angus Cattle
- Humane Animal Treatment
- High Quality Corn-Based Feed
- State Of The Art Processing
- USDA Certified Beef Programs

USDA CERTIFICATION

The Creekstone Farms Premium Black Angus Beef program is one of the few branded programs certified by the USDA. This certification ensures superior products through more stringent guidelines and on-going inspections.

HAND SELECTED BLACK ANGUS CATTLE

Black Angus cattle have long been known to create beef that is tenderer with a superior flavor. Most Black Angus programs select their cattle solely on hide color. Our cattle are hand-selected to be the best of the best and represent true Black Angus genetics. Only 1 in 100 cattle represents the Creekstone Brand!

RAISED AND GRAZED IN THE USA

Do you know where your beef comes from? At Creekstone Farms we process only the finest Premium Black Angus Beef, all born and bred in the USA. Not Mexico or Canada. So that means not only do we support local farms, but we also ensure our beef has met some the most rigid food safety standards anywhere.

HUMANE ANIMAL TREATMENT

One of the things we know is that Humanely Treated animals produce superior tasting and more tender beef. Every step of the way-from birth to processing, we ensure our animals are handled compassionately and humanely. In fact, our beef processing plant was designed with animal welfare in mind by Dr. Temple Grandin.

SIGNATURE BURGERS
